SUBJECT INDEX

3'azido-2',3'-deoxythymidine (AZT) on experimental feline immunodeficiency virus infection in domestic cats, Effect of, 220
^{99M}Tc-macroaggregates into a splenic vein, Quantitation of portosystemic shunting in dogs by ultrasound-guided injection of, 58

α5β1 in canine mammary tumours, Expression of fibronectin and its integrin receptor, 358
Absorption of lincomycin through the respiratory pathways and its influence on alveolar macrophages after aerosol administration to chickens, 245
Action of zinc on enzymatic digestion and intestinal transport of sugar in the rabbit, 15
Age-dependent immune response in Merino sheep, 152
Alpha-1-proteinase inhibitor in the pulmonary epithelial lining fluid of horses with chronic obstructive pulmonary disease, Quantitation of, 262
Alpha-1-proteinase inhibitor in uterine flushings from mares, Measurement by ELISA of equine, 45
Anaesthesia and anaesthesia plus ovariohysterectomy in bitches, Changes in plasma cortisol concentration before, during and after analgesia, 110
Analgesia, anaesthesia and anaesthesia plus ovariohysterectomy in bitches, Changes in plasma cortisol concentration before, during and after, 110
Application of monoclonal antibody-based sandwich ELISAs to detect verotoxins in cattle faeces, 225
Assessment of the welfare of food restricted male boiler breeder poultry with musculoskeletal disease, 28
Atrial natriuretic peptide in normal calves during the first 10 days of life, Plasma, 251
AZT on experimental feline immunodeficiency virus infection in domestic cats, Effect of 'azido-2',3'-deoxythymidine, 220

β-haemolytic Lancefield group C streptococci from horses and their association with disease, Genetic structure of populations of, 292
Baquiloprim and sulphadimidine in pigs after intramuscular administration, Pharmacokinetics of, 69
Biochemical profile for predicting the chronic exposure of sheep to *Microcystis aeruginosa*, an hepatotoxic species of blue-green alga, A, 310
Blood coagulation in the newborn calf, Competency of, 336
Blood lactate disappearance after maximal exercise in trained and detrained horses, 325
Blood pressure in anaesthetised dogs, using tail and limb cuffs, A comparison of direct and indirect oscillometric measurements of arterial, 265
Borrelia burgdorferi, Experimental infection of dogs with, 256
Bovine ketosis and somatotrophin: risk factors for ketosis and effects of ketosis on health and production, 200
Bubalis bubalis to calves and levels of infection with *T vitulorum* in the calves, *Toxocara vitulorum*: maternal transfer of antibodies from buffalo cows, 81
Buffalo cows (*Bubalis bubalis*) to calves and levels of infection with *T vitulorum* in the calves, *Toxocara vitulorum*: maternal transfer of antibodies from, 81

Calcium, magnesium and chlorine in the muscle cells of downer cows and cows with parturient paresis, Concentrations of sodium, potassium, 53
Cartilage, Crystals in equine articular, 106
Changes in plasma cortisol concentration before, during and after analgesia, anaesthesia and anaesthesia plus ovariohysterectomy in bitches, 110
Changes in the blood composition of calves during experimental and natural infections with *Eimeria alabamensis*, 377
Chlorine in the muscle cells of downer cows and cows with parturient paresis, Concentrations of sodium, potassium, calcium, magnesium and, 53
Chronic obstructive pulmonary disease, Quantitation of alpha-1-proteinase inhibitor in the pulmonary epithelial lining fluid of horses with, 262
Clenbuterol, Pathology and residues in veal calves treated experimentally with, 365
Coagulase negative staphylococci from bovine mastitis, A simple identification scheme for, 240
Coccidial parasites from the chicken: discrimination of different populations of *Eimeria tenella* by DNA hybridisation, 10
Colostral IgG absorption across the intestine of newborn calves, An immunoelectron microscopic investigation of, 75
Colostral IgG by small intestinal enterocytes in newborn rats, Immunoelectron microscopical demonstration of the absorption of, 146
Colostrum, A study of flow cytometry of lymphocytes in sow, 300
Comparison of direct and indirect oscillometric measurements of arterial blood pressure in anaesthetised dogs, using tail and limb cuffs, A, 265
Comparison of pestivirus multiplication in cells of different species, 210
Comparison of single and repeated oral infection of chicks with two avian reoviruses, A, 96
Competency of blood coagulation in the newborn calf, 336
Concentrations of sodium, potassium, calcium, magnesium and chlorine in the muscle cells of downer cows and cows with parturient paresis, 53
Cortisol concentration before, during and after analgesia, anaesthesia and anaesthesia plus ovariohysterectomy in bitches, Changes in plasma, 110
Cortisol concentrations during intravenous infusions of hydrocortisone sodium succinate in dogs, Effect of chronic hypocortisolaemia on plasma, 349

Cortisol concentrations in sheep: a field study, Effect of chronic pain associated with lameness on plasma, 332
Crystals in equine articular cartilage, 106
Cytogenetic analyses of four solid tumours in dogs, 88
Cytokeratin expression in canine visceral glomerular epithelial cells in vivo, Evidence of, 39

Dermatitis in dogs diagnosed by intradermal skin tests, Flea allergy, 21
Development of an enzyme-linked immunosorbent assay test for the detection of IgG subclasses in the serum of normal and diseased dogs, 133
Developmental changes in testicular luteinising hormone receptors and androgens in the dog, 305
Dietary composition on abomasal and duodenal myoelectrical activity, Effect of, 270
Diminazene in plasma and cerebrospinal fluid of goats, Pharmacokinetics of, 253
DNA hybridisation, Coccidial parasites from the chicken: discrimination of different populations of *Eimeria tenella* by, 10
Downer cows and cows with parturient paresis, Concentrations of sodium, potassium, calcium, magnesium and chlorine in the muscle cells of, 53
Dyschondroplasia, Plasma concentration of growth hormone and insulin-like growth factor-I in chickens developing tibial, 100

Ear and its inhibition by isoproterenol, Schultz-Dale reaction in isolated perfused calf, 159
Effect of 3'azido-2',3'-deoxythymidine (AZT) on experimental feline immunodeficiency virus infection in domestic cats, 220
Effect of chronic hypocortisolaemia on plasma cortisol concentration during intravenous infusions of hydrocortisone sodium succinate in dogs, 349
Effect of chronic pain associated with lameness on plasma cortisol concentrations in sheep: a field study, 332
Effect of dietary composition on abomasal and duodenal myoelectrical activity, 270
Effect of *Mycoplasma gallinarum* on embryonated village chicken eggs, 390
Effects of non-steroidal anti-inflammatory drugs on the hyperalgesia to noxious mechanical stimulation induced by the application of a tourniquet to a forelimb of sheep, 285
Ehrlichia risticii by mouse peritoneal macrophages, Respiratory burst activity associated with phagocytes of, 194
Eimeria alabamensis, Changes in the blood composition of calves during experimental and natural infections with, 377
Eimeria tenella by DNA hybridisation, Coccidial parasites from the chicken: discrimination of different populations of, 10
Endotoxin-induced platelet aggregation in heparinised equine whole blood in vitro, 317
Erythrocytes in clinically normal dogs and dogs infected with parasites, Osmotic fragility of, 343
Evidence of cytokeratin expression in canine visceral glomerular epithelial cells in vivo, 39
Exercise in trained and detrained horses, Blood lactate disappearance after maximal, 325
Experimental infection of dogs with *Borrelia burgdorferi*, 256
Expression of fibronectin and its integrin receptor α5β1 in canine mammary tumours, 358

Fasciola hepatica: changes in serum levels of inflammatory markers during the early stages of fasciolosis, Influence of anti-inflammatory treatments on experimental infection of rats with, 172
Fasciola hepatica: changes in serum levels of inflammatory markers during the early stages of fasciolosis, Influence of pro-inflammatory treatments on experimental infection of rats with, 180
Fibronectin and its integrin receptor α5β1 in canine mammary tumours, Expression of, 358
Flea allergy dermatitis in dogs diagnosed by intradermal skin tests, 21
Flow cytometric analysis of bovine CD4 and CD8 lymphocytes: influence of blood sampling and processing methods, 163
Flow cytometry of lymphocytes in sow colostrum, A study of, 300
Fluconazole in cats after intravenous and oral administration, Pharmacokinetics of, 372
Food consumption in relation to bodyweight in captive snakes, 35
Foot-and-mouth disease virus, Haptoglobin response of cattle infected with, 125
Further studies on the development and survival at low temperatures of the free living stages of *Trichostrongylus tenuis*, 215

Gait and respiration in standardbred horses when pacing and galloping, 233
Genetic structure of populations of β-haemolytic Lancefield group C streptococci from horses and their association with disease, 292
Glycoconjugates in the mandibular salivary gland of adult dogs revealed by lectin histochemistry, 353
Growth hormone and insulin-like growth factor-I in chickens developing tibial dyschondroplasia, Plasma concentration of, 100

Haemonchus contortus, Serum antibody responses of Texel sheep experimentally infected with, 63
Haptoglobin response of cattle infected with foot-and-mouth disease virus, 125
Heparinised equine whole blood in vitro, Endotoxin-induced platelet aggregation in, 317
Hydrocortisone sodium succinate in dogs, Effect of chronic hypocortisolaemia on plasma cortisol concentration during intravenous infusions of, 349
Hyperalgesia to noxious mechanical stimulation induced by the application of a tourniquet to a forelimb of sheep, Effects of non-steroidal anti-inflammatory drugs on the, 285
Hypocortisolaemia on plasma cortisol concentrations during intravenous infusions of hydrocortisone sodium succinate in dogs, Effect of chronic, 349

IgG, Preparation of mononuclear antibodies specific for the subclasses of canine, 140
IgG by small intestinal enterocytes in newborn rats, Immunoelectron microscopial demonstration of the absorption of colostral, 146
IgG response of sheep vaccinated with S48 *Toxoplasma gondii* (Toxovax), Western blot analysis of the, 384

IgG subclasses in the serum of normal and diseased dogs, Development of an enzyme-linked immunosorbent assay test for the detection of, 133
Immediate responses in serum TNF_{α} and acute phase protein concentrations to infection with *Pasteurella haemolytica* A1 in calves, 129
Immune response in Merino sheep, Age-dependent, 152
Immunodeficiency virus infection in domestic cats, Effect of 3'azido-2',3'-deoxythymidine (AZT) on experimental feline, 220
Immunoelectron microscopic investigation of colostral IgG absorption across the intestine of newborn calves, An, 75
Immunoelectron microscopical demonstration of the absorption of colostral IgG by small intestinal enterocytes in newborn rats, 146
Immunoglobulin by three non-blood-feeding nematode parasites of ruminants, Ingestion of host, 387
Influence of anti-inflammatory treatments on experimental infection of rats with *Fasciola hepatica*: changes in serum levels of inflammatory markers during the early stages of fasciolosis, 172
Influence of pro-inflammatory treatments on experimental infection of rats with *Fasciola hepatica*: changes in serum levels of inflammatory markers during the early stages of fasciolosis, 180
Ingestion of host immunoglobulin by three non-blood-feeding nematode parasites of ruminants, 387
Insulin-like growth factor-I in chickens developing tibial dyschondroplasia, Plasma concentration of growth hormone and, 100
Isolation and preliminary characterisation of a previously unidentified *Theileria* parasite of cattle in Kenya, 1
Isoproterenol, Schultz-Dale reaction in isolated perfused calf ear and its inhibition by, 159

Ketosis and somatotrophin: risk factors for ketosis and effects of ketosis on health and production, Bovine, 200

Lactate disappearance after maximal exercise in trained and detrained horses, Blood, 325
Lameness on plasma cortisol concentrations in sheep: a field study, Effect of chronic pain associated with, 332
Lancefield group C streptococci from horses and their association with disease, Genetic structure of populations of β-haemolytic, 292
Lectin histochemistry, Glycoconjugates in the mandibular salivary gland of adult dogs revealed by, 353
Linomycin and spectinomycin in the treatment of breeding rams with semen contaminated with ureaplasmas, 393
Lincomycin through the respiratory pathways and its influence on alveolar macrophages after aerosol administration to chickens, Absorption of, 245
Louping ill virus: induction of partial homologous and heterologous protection in mice, Recombinant vaccina virus expressing PrM and E glycoproteins of, 188
Luteinising hormone receptors and androgens in the dog, Developmental changes in testicular, 305

Magnesium and chlorine in the muscle cells of downer cows and cows with parturient paresis, Concentrations of sodium, potassium, calcium, 53
Mammary tumours, Expression of fibronectin and its integrin receptor α5β1 in canine, 358
Mastitis, A simple identification scheme for coagulase negative staphylococci from bovine, 240
Measurement by ELISA of equine alpha-1-proteinase inhibitor in uterine flushings from mares, 45
Microcystis aeruginosa, an hepatotoxic species of blue-green alga, A biochemical profile for predicting the chronic exposure of sheep to, 310
Musculoskeletal disease, Assessment of the welfare of food restricted male boiler breeder poultry with, 28
Mycoplasma gallinarium on embryonated village chicken eggs, Effect of, 390
Myoelectrical activity, Effect of dietary composition on abomasal and duodenal, 270

Nematode parasites of ruminants, Ingestion of host immunoglobulin by three non-blood-feeding, 387
Nephropathies, Tubular vimentin metaplasia in canine, 248

Oscillometric measurements of arterial blood pressure in anaesthetised dogs, using tail and limb cuffs, A comparison of direct and indirect, 265
Osmotic fragility of erythrocytes in clinically normal dogs and dogs infected with parasites, 343
Ovariohysterectomy in bitches, Changes in plasma cortisol concentration before, during and after analgesia, anaesthesia and anaesthesia plus, 110

Pain associated with lameness on plasma cortisol concentrations in sheep: a field study, Effect of chronic, 332
Parasites, Osmotic fragility of erythrocytes in clinically normal dogs and dogs infected with, 343
Parasites of ruminants, Ingestion of host immunoglobulin by three non-blood-feeding nematode, 387
Parturient paresis, Concentrations of sodium, potassium, calcium, magnesium and chlorine in the muscle cells of downer cows and cows with, 53
Pasteurella haemolytica A1 in calves, Immediate responses in serum TNF_{α} and acute phase protein concentrations to infection with, 129
Pathology and residues in veal calves treated experimentally with clenbuterol, 365
Pestivirus multiplication in cells of different species, Comparison of, 210
Pharmacokinetics of baquiloprim and sulphadimidine in pigs after intramuscular administration, 69
Pharmacokinetics of diminazene in plasma and cerebrospinal fluid of goats, 253
Pharmacokinetics of fluconazole in cats after intravenous and oral administration, 372
Phasianus colchicus fed restricted or unrestricted diets, Weight, carcase composition and reproductive performance of pheasants, 119
Pheasants (*Phasianus colchicus*) fed restricted or unrestricted diets, Weight, carcase composition and reproductive performance of, 119
Plasma atrial natriuretic peptide in normal calves during the first 10 days of life, 251
Plasma concentration of growth hormone and insulin-like growth factor-I in chickens developing tibial dyschondroplasia, 100
Potassium, calcium, magnesium and chlorine in the muscle cells of downer cows and cows with parturient paresis, Concentrations of sodium, 53

Preparation of mononuclear antibodies specific for the subclasses of canine IgG, 140

Quantitation of alpha-1-proteinase inhibitor in the pulmonary epithelial lining fluid of horses with chronic obstructive pulmonary disease, 262
Quantitation of portosystemic shunting in dogs by ultrasound-guided injection of ^{99M}Tc-macroaggregates into a splenic vein, 58

Rate of discharge and morphology of sweat glands on the perineal, lumbodorsal and scrotal skin of cattle, 277
Recombinant vaccina virus expressing PrM and E glycoproteins of louping ill virus: induction of partial homologous and heterologous protection in mice, 188
Reoviruses, A comparison of single and repeated oral infection of chicks with two avian, 96
Respiratory burst activity associated with phagocytes of *Ehrlichia risticii* by mouse peritoneal macrophages, 194

Salivary gland of adult dogs revealed by lectin histochemistry, Glycoconjugates in the mandibular, 353
Schultz-Dale reaction in isolated perfused calf ear and its inhibition by isoproterenol, 159
Serotypes and putative virulence markers of *Streptococcus suis* isolates from cats and dogs, 259
Serum antibody responses of Texel sheep experimentally infected with *Haemonchus contortus*, 63
Shunting in dogs by ultrasound-guided injection of ^{99M}Tc-macroaggregates into a splenic vein, Quantitation of portosystemic, 58
Simple identification scheme for coagulase negative staphylococci from bovine mastitis, A, 240
Snakes, Food consumption in relation to bodyweight in captive, 35
Sodium, potassium, calcium, magnesium and chlorine in the muscle cells of downer cows and cows with parturient paresis, Concentrations of, 53
Sodium succinate in dogs, Effect of chronic hypocortisolaemia on plasma cortisol concentrations during intravenous infusions of hydrocortisone, 349
Somatotrophin: risk factors for ketosis and effects of ketosis on health and production, Bovine ketosis and, 200
Spectinomycin in the treatment of breeding rams with semen contaminated with ureaplasmas, Linomycin and, 393
Streptococci from horses and their association with disease, Genetic structure of populations of β-haemolytic Lancefield group C, 292
Streptococcus suis isolates from cats and dogs, Serotypes and putative virulence markers of, 259
Study of flow cytometry of lymphocytes in sow colostrum, A, 300
Sugar in the rabbit, Action of zinc on enzymatic digestion and intestinal transport of, 15
Sulphadimidine in pigs after intramuscular administration, Pharmacokinetics of baquiloprim and, 69
Sweat glands on the perineal, lumbodorsal and scrotal skin of cattle, Rate of discharge and morphology of, 277

Theileria parasite of cattle in Kenya, Isolation and preliminary characterisation of a previously unidentified, 1
Tourniquet to a forelimb of sheep, Effects of non-steroidal anti-inflammatory drugs on the hyperalgesia to noxious mechanical stimulation induced by the application of a, 285
Toxocara vitulorum: maternal transfer of antibodies from buffalo cows (*Bubalis bubalis*) to calves and levels of infection with *T vitulorum* in the calves, 81
Toxoplasma gondii (Toxovax), Western blot analysis of the IgG response of sheep vaccinated with S48, 384
Trichostrongylus tenuis, Further studies on the development and survival at low temperatures of the free living stages of, 215
Tubular vimentin metaplasia in canine nephropathies, 248
Tumours in dogs, Cytogenetic analyses of four solid, 88

Ureaplasmas, Linomycin and spectinomycin in the treatment of breeding rams with semen contaminated with, 393
Uterine flushings from mares, Measurement by ELISA of equine alpha-1-proteinase inhibitor in, 45

Verotoxins in cattle faeces, Application of monoclonal antibody-based sandwich ELISAs to detect, 225
Vimentin metaplasia in canine nephropathies, Tubular, 248

Weight, carcase composition and reproductive performance of pheasants (*Phasianus colchicus*) fed restricted or unrestricted diets, 119
Welfare of food restricted male boiler breeder poultry with musculoskeletal disease, Assessment of the, 28
Western blot analysis of the IgG response of sheep vaccinated with S48 *Toxoplasma gondii* (Toxovax), 384

Zinc on enzymatic digestion and intestinal transport of sugar in the rabbit, Action of, 15
